EDUCATION

CARNEGIE MELLON UNIVERSITY – TEPPER SCHOOL OF BUSINESS

Pittsburgh, PA

Master of Science in Business Analytics - MSBA

05/27

- Selected Coursework: Statistics, Modern Data Management, Data Visualization, Optimization for Prescriptive Analytics, Machine Learning

UNIVERSITY OF CALIFORNIA, DAVIS

Davis, CA

Bachelor of Science & Bachelor of Arts in Cognitive Science, Design & Computer Science

06/25

- Selected Coursework: Technology Management, Algorithms, Human Computer Interaction, Software Design
- Leadership: Finance Director of Davis Design Interactive by managing \$40K annual budget across 12+ events
- Affiliations: UR2PHD National Research Fellowship (selected from 200+ applicants)
- Clubs: Artificial Intelligence Student Collective, Women in CS, Design Interactive, ID Society of America

WORK EXPERIENCE

TECHEQUITY AI, DIGO

Mountain View, CA

Product Lead, Founding Team

01/26 – 05/26

- Product Ownership:** Launched from 0-1 an AI event-management platform in 10 weeks, driving adoption by 15 companies running 11 live events in month one with a 100% on-time release rate, by collaborating with engineering to build the live web application using TypeScript and Angular and making rapid scope and trade-off decisions.
- User Research:** Redesigned the onboarding experience in Figma, reducing user setup time by 50%, by conducting 20+ user interviews and prioritizing the three pain points responsible for most onboarding drop-offs.
- Prioritization:** Established the team's first structured product backlog, reducing average cycle time by 30% across 5 sprints, by decomposing 12 epics into 40+ user stories using the RICE framework.

GIRI INC.

Sunnyvale, CA

Product Consultant

10/25 – 03/26

- Strategy & Influence:** Built the company's first analytics framework, gaining leadership adoption of a live dashboard within 3 weeks and mapping 8 KPIs to 100% of quarterly OKRs, by translating ambiguous business goals into measurable metrics and presenting recommendations to executives.
- Problem Solving:** Improved the checkout experience by reducing steps from 7 to 3, increasing conversion by an estimated 25%+, by diagnosing drop-off points using Google Analytics and BigQuery funnel analysis.

OPSFINITY (Stealth Startup)

Vacaville, CA

Product Consultant

09/25 – 02/26

- Decision-Making:** Resolved accounts payable discrepancies, improving accuracy from 72% to 94% and reducing payment errors, by analyzing live Acumatica ERP data and categorizing the five failure patterns driving mismatches.
- Process Design:** Designed an accounts payable and accounts receivable cross-validation system, cutting manual review workload 40%, by using SQL data modeling.

PROJECT EXPERIENCE

PULSE, NLP ANALYTICS COPILOT

01/25 – Present

- Machine Learning:** Built an NLP copilot that answers plain-English data questions in under 30 seconds, opening SQL-level analysis to non-technical users, by training and deploying models in Python and TensorFlow.
- Experimentation:** Lifted weekly active query volume 40%, by defining activation, engagement, and retention metrics and running 3 A/B tests on ML features.

MARGATI, AI PRODUCTIVITY TOOL

09/25 – 11/25

- Product Delivery:** Shipped an ML task-scoring system in 8 weeks, cutting planning overhead 35% for pilot users, by running 15+ user interviews, building a RICE roadmap and PRDs, and training the scoring model in Python.

UC DAVIS DEPARTMENT OF COMPUTER SCIENCE

Davis, CA

Undergraduate Research Assistant, UR2PHD Fellowship

07/23 – 03/26

- Collaboration & Communication:** Co-authored peer-reviewed research on AI-driven network security, by partnering with a faculty-led research team and building Python pipelines to anonymize large-scale network traffic datasets.
- Machine Learning:** Automated the full ML testing pipeline, cutting research turnaround 50% and enabling the team to run 3x more experiments per quarter, by identifying manual bottlenecks and scripting end-to-end workflows in Python.

ADDITIONAL INFORMATION & SKILLS

- Programming/Technical Skills:** Python, SQL, TypeScript, TensorFlow, Scikit-learn, Pandas, NumPy, NLP, Computer Vision, BigQuery, Google Analytics, Tableau, Looker Studio, React, Angular, Git
- Product Skills:** Roadmapping, PRDs, OKRs/KPIs, RICE Prioritization, A/B Testing, User Research, Figma, Jira, Agile/Scrum
- Links:** Portfolio: swatibuilds.com | GitHub: github.com/swatipiyer
- Interests:** Hackathons, Singing, Cooking, Hiking, Baking, Pottery, Volunteering at Library, Gardening
